Windows explorer error at startup

## Windows explorer error at startup

I recently ran into a really annoying problem on my **Windows** 7 64-bit PC: every time I restarted it and booted into **Windows**, the **Windows Explorer** Libraries window. Fix **Explorer.exe Error** with Yellow Exclamation **at Startup** in **Windows** 8 No operating system is without flaws, and the same thing goes for **Windows** 10. Speaking of **Windows** 10 and its issues, it seems that some users are getting **Explorer.exe**. I recently had a few **windows** and searches on my computer and also a scan of a disk in the back ground <https://skydrive.live.com/redirect?resid=7A797BF1CB645296!691>

What.
