Apache2 error 98 already in use

## Apache2 error 98 already in use

I can stop it using  
`/etc/init.d/apache2 stop` But  
when I want to start it again  
using: `/etc/init.d/apache2 start` I  
get this **error**: Starting web  
server **apache2**. I have  
successfully configured Apache  
web server for my client. But  
why does my clients website  
just say “**Error 403 Forbidden**”?  
For example when client send.  
The supplied documentation is  
vague, ambiguous and lacking,  
and the user comments contain  
erroneous information! The  
flock function follows the  
semantics of the Unix.
