Sql 2005 reindex error check the system catalog

Sql 2005 reindex error check the system catalog

As mentioned above, **SQL Server 2005** full-text catalogs are part of a filegroup. If you're running the **CREATE FULLTEXT CATALOG** statement against **SQL Server 2005**, you. **ERROR 1222: Lock request time out period exceeded.** It says find the offending transaction and terminate it and run the query again. Though sometimes there is a **SQL Server Integrity Check.**

DatabaseIntegrityCheck is the **SQL Server Maintenance Solution's** stored procedure for checking the integrity of databases.
